

**【Remote Control】** smart low voltage transformer works with Alexa and Google Home Assistant, control your landscaping lights by simply giving voice commands to it or by your smartphone; no hub required.

**【Schedule & Timer Function】** 5 Timer modes are available- programmable timer/ countdown timer/ astronomic timer/ holiday random/ security random modes. By astronomical timer mode, the lighting turns on automatically at dusk and off at dawn. 600W, convert 120V AC household voltage to 12V /13./15V AC safety voltage, providing a safer and more practical electrical current level.

**【Easy to Set & Install】** Connect it to the internet through Wi-Fi network(only 2.4Ghz) for controlling spotlights anywhere and anytime. Built-in hanging hole, 3.3ft power cable, mount it on outdoor walls directly.

**【Safe & Weatherproof】** Overload protection, it automatically breaks off when the current exceeds threshold, preventing plugged-in devices from damage, protecting your lights safely. High performance metal material, protects the transformer from rain, snow, dust and abrasion, withstands years of use.

**【Wide Application】** Compatible with all 12V/13/15V low voltage LED, halogen landscape lighting, like spotlight, pathway light, garden light, water feature etc. You can connect to a maximum of twelve(12) Wi-Fi low voltage transformers via the app.
